

# ACROPOLIS

The Solution Architects

## Welcome To Acropolis

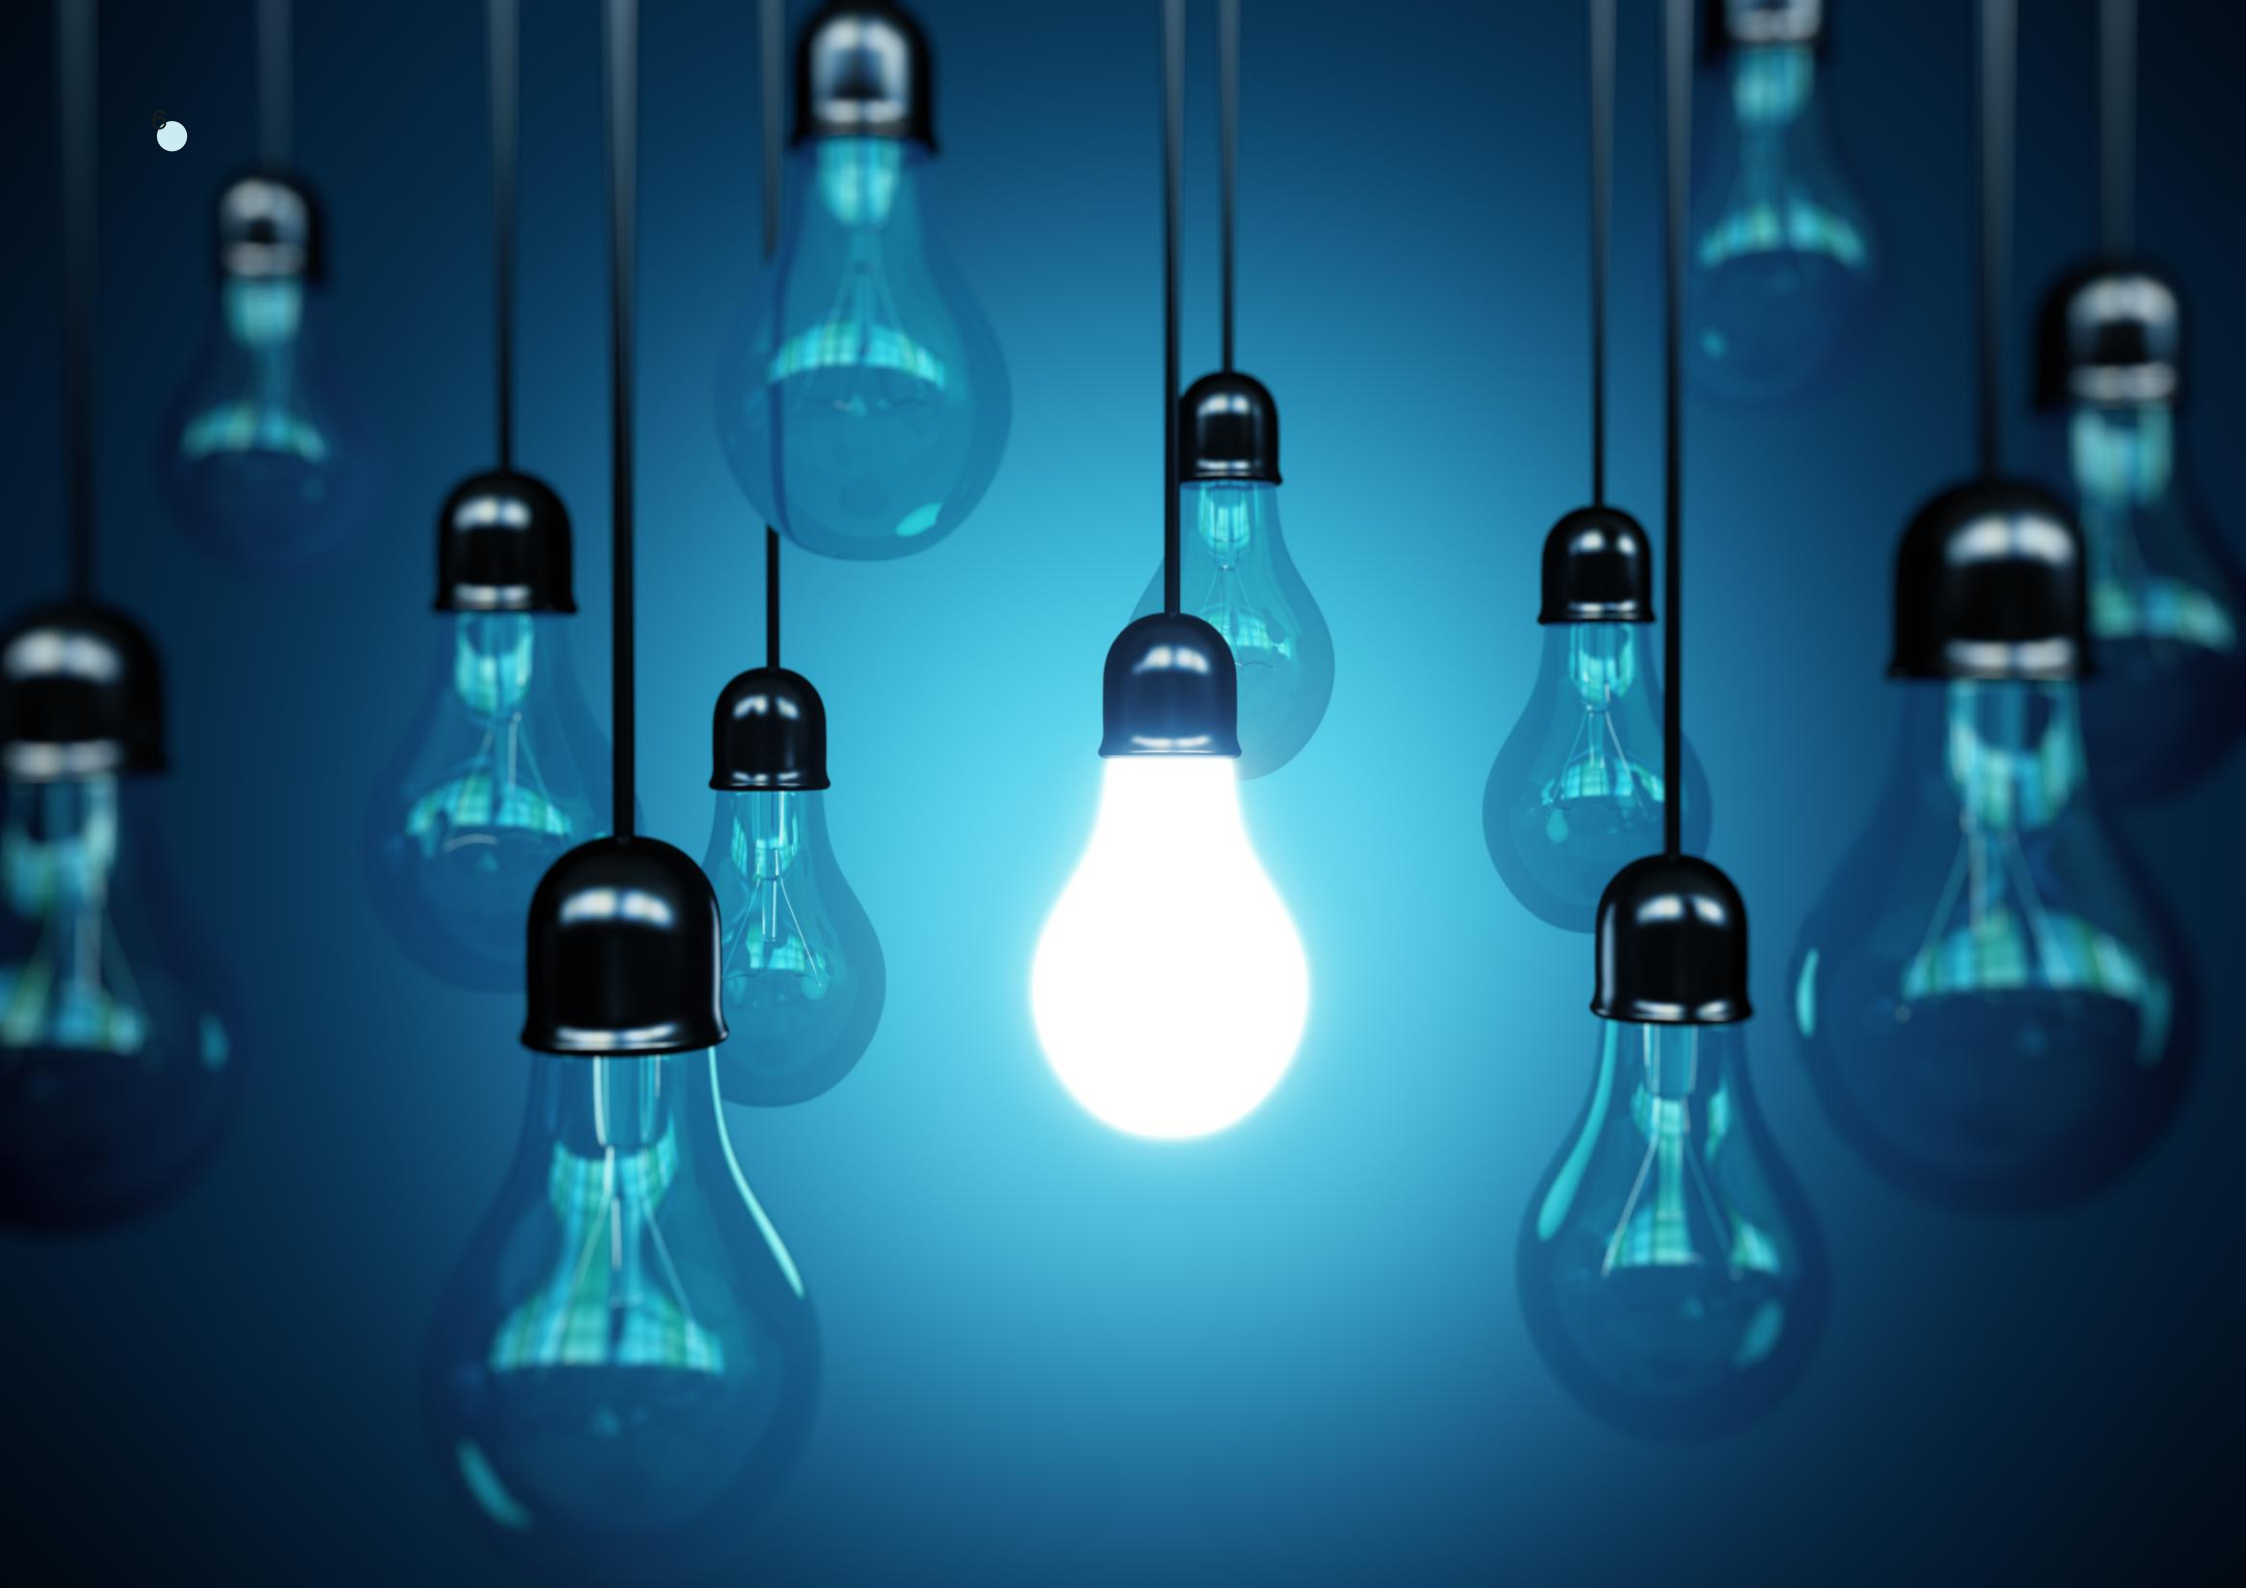

Where we design better systems for better outcomes. With our deep diverse knowledge and relentlessly innovative culture, we work to ensure our clients' success is as visible like 'a city on hill'.

## Complex Challenges Innovative Solutions

The modern world provides complexities and challenges never seen before. The adoption and proliferation of technology hasn't closed the gap on inequality, inclusion and growth as initially imagined. Governments and businesses are now faced with extra-ordinary external pressure to deliver goods and services at a faster pace but are haunted by old problems while grappling with new problems especially in the developing world where we operate.

That's what we do at Acropolis, we re-imagine the world not as it is, but how it should be. We help our clients drive progress by design and build solutions that work.

## At Your Service

We advise a diverse mix of clients from emerging companies to local & national governments. For public sector organizations, we provide financial and resource optimization services. We also deliver strategies for process improvement and knowledge management.

For corporate clients we provide insights on government policies that affect business interests. We develop effective strategies to propel industry-based progress via cutting-edge advocacy and a hands-on approach to regulation and legislative counsel in real-time.

## The Acropolis Model

We have developed a grassroots, organic, indigenous model to problem-solving that ensures we are not only dealing with the symptoms of the problem but with the root causes of the problem.

We go where others won't go to help our clients deliver extra-ordinary results

## Why Choose Acropolis?

We have unrivaled local grassroots connections and influence in major cities globally to design solutions that best meets our clients needs. We are so committed to the success of our clients that we work relentlessly to ensure it shows like a city on a hill just like our name Acropolis suggests.

## The Acropolis Culture

We actually truly care about our clients' success. We also care about the communities that we work in so we constantly seek for opportunities that help our communities prosper. There is no room for mediocrity here, as we believe the task of changing our world is too high stakes to tolerate a spirit of 'anyhowness'. Excuses and whining are not allowed. We get things done. Our culture is bold, energetic and innovative.

The spirit of Acropolis is one that leaves a lasting legacy worth talking about thousands of years after.

## The Acropolis Team

Acropolis attracts top talent from around the country due to phenomenal opportunities to work on meaningful projects with far reaching impact. The policy consultants, researchers, economists, technologists, field operations specialist and more are constantly pushing boundaries to redefine service, business and politics. Our teams diverse experience combined with our innovative approach and political connections ensure the we deliver results for our clients

## Management Team

### **SIMI FAJEMIROKUN – Senior Partner**

Simi heads the group and provides general oversight of the firm. She is a distinguished visionary offering a diverse career in driving significant and profitable growth via high volume projects in the management-consulting sector. She stands at the forefront of policy advocacy having spent the last decade supporting various arms of government and MDA's in Nigeria.

A calculated risk-taker and thought leader with deep knowledge of sustainable public sector projects and community building. Simi has championed multi-layered public policy initiatives that have helped clients achieve groundbreaking results. Embracing the core values of integrity, innovation, leadership and growth, Simi has constantly been entrusted with critical positions to deliver on

challenging mandates. She led her team on the presidential campaign council's situation room to deliver victory.

Simi is a valued speaker and contributor to the TEDx platforms and has had several other speaking engagements at the World Economic Forum at Davos and Africa, Africa Union, United Nations Conference on Trade and Development (UNCTAD), The Presidential Advisory Committee Against Corruption (PACAC), British Council and Architect & Design Conferences.

She also sits on several boards such as AllCO multi-shield (a top health maintenance organization) and has been invited to serve on several committees on the Presidential, State and Local Government Level. She has an unrivaled political network from the local grassroots level to the national stage based

on her work in the community and also being the youngest female to run for political office in the federal capital territory.

Simi is a graduate of Politics and International Relations. She holds several certifications in Project Management, Emerging Leader Development Program (Columbia Business School) and International Negotiations (UNITAR)

## Management Team

### **OMADACHI OKLOBIA – Partner**

Oklobia leads the team on privatization, public finance and economic policy. He has led a long and distinguished career in Public Finance from serving as Technical advisor to the Budget Office, Ministry of Finance after which he served a two-term tenure as the honorable Commissioner of Finance in Benue State. As commissioner, he brought in landmark budgetary processes, Treasury reforms, and systems that stimulated economic growth and fostered the State's biggest infrastructure projects till date. He has the added distinction of being one of the longest serving commissioners of finance in the country. He served as Secretary of the Forum of Commissioners of Finance for six years, and on a number of the Forums working Committees, which advised the Minister of Finance, also on

several subnational finance committees and played an instrumental role in increasing the capacity of revenue generating agencies to dramatically improve their incomes. He was also a leader in efforts to improve tax collection and attract investments on the federal and state level.

He has authored several papers on public policy, administration and budgeting. He is currently a Senior Lecturer at the Department of Public Administration in Nassarawa State University. He has a PhD in Political Economy and Development Studies and has certificates from Harvard University's Kennedy School of Government.

He has a brilliant mind and is unafraid to think outside the box. He brings his vast leadership skills of over 28 years of working in research, the public finance sector and an inside understanding of complex public sector

practices to help organizations succeed. Oklobia has led local and state governments, universities, and other organizations in developing funding strategies and addressing economic policy issues.

## Management Team

### **OWUNO OGBEH – Partner**

Owuno serves as lead on Corporate Strategy & Business Development. He has an extensive background in business development in both the private and public sector; working with numerous private firms as well as the Nigerian Sovereign Investment Authority, in charge of Nigeria's Sovereign Wealth Fund. He supports organizations in strategy development and execution planning which covers anticipating and mitigating against risks such as -financial, political, regulatory, reputational- that are crucial to advancing their strategic objectives. He also helped many successful startups navigate through the murky waters of the early stage process via cutting-edge operations and financial management strategies.

He has helped clients access public and private markets in raising capital in excess of \$5million within tight time frames.

He's a driven and visionary leader and has been identified as a dealmaker with a vast network of political and investment associates. He is maniacal about 'excellence in execution' and has inspired the business community via lean yet successful ventures that he has set-up in the agribusiness, real estate and technology sector.

He serves on the board of Gift of Giving, a non-governmental organization that provides economic opportunities to thousands of polytechnic students across the country.

He has a Masters in Engineering and has certifications from Lagos Business School. He enjoys guest lecturing, public speaker and mentoring. He is passionate about empowering the next generation.
